

A huge thank you to all parents/carers who have chosen to keep their children at home in these very unusual and worrying times.

The Government message is clear – if you can keep your child at home then please do so this includes children with EHCP's. Children in care should usually not be expected to attend school unless there is an agreement between the Social Worker and the school.

School is safe but home is safer.

In this situation then we will need to prioritise the children that we can care for as I also have a responsibility for the health and welfare of staff.

You should only send your child to school on Monday if you have to, because your work is critical to our COVID-19 response.

If you are able to keep your child at home, you should.

[#StayHomeSaveLives](#)

In order to judge whether your child is eligible for a place we will need to have the following information.

Childs Name

Parent 1 – Occupation

Parent 2 – Occupation

Government guidance states that “if workers think that they fall within the critical categories, they should confirm with their employer that their specific role is necessary for the continuation of this essential public service.”

As the threat and implications of COVID 19 continues we will continue to revise the arrangements on a daily basis.

Huge thanks for your understanding and support at this very difficult time.
